Your AI architecture sketching buddy

For beginners, the blank page is the hardest part.

Guided sketch exercises turn first lines into useful feedback and a clear next step.

Learn to see space. Then draw it.

One sketch, one focused next step

A complete learning loop for first-year drawing

POST /api/review

OpenAI Vision Critic → Kiki Drawing Coach

Feedback + career map

Review, chat, and job search call OpenAI on the server.

From sketch feedback to career direction

DRAW	Canvas with undo, eraser, clear, and perspective guides
PRACTICE	Generated variations and a career roadmap
UNDERSTAND	Vision critique of perspective and proportions
IMPROVE	**Kiki Coach turns critique into a practice exercise**
ASK	Chat tutor with cited web resources

Career match and readiness reuse the same Vision Critic result.

Watch a first sketch become a lesson

1. Choose The 3D Cube
2. Load Sample Drawing
3. Click AI Review
4. **Explore career paths; start practice**
